

DUMB ASS COIN (\$DUMB)

"Built Different. Built Dumber."

Overview

Dumb Ass Coin is a meme-powered, community-driven crypto project built for degens who are smart enough to laugh at how dumb crypto really is. Powered by Darryl the Dumb Ass Gorilla, \$DUMB turns every transaction into passive income for holders, deflation for the supply, and chaos for the charts.

Tokenomics

Ticker: \$DUMB

Total Supply: 1,000,000,000

Tax on Every Buy/Sell: 5%

- 2.5% Burned (Darryl eats it)
- 2.5% Redistributed to holders in SOL (every 15 mins)

Passive Rewards

Every 15 minutes, eligible holders are rewarded in Solana. All you have to do is hold \$DUMB. Darryl and the smart contract take care of the rest. Don't ask how. Darryl doesn't know either.

Dumb Ass Coin (\$DUMB)

Burn Mechanics

Every transaction feeds Darryl's burning appetite. With 2.5% of every trade sent to the void, \$DUMB becomes rarer - just like common sense in this market.

Roadmap

Phase 1: "Throwin' Darts"

- Launch Telegram
- Launch Token
- Build a dumbass community
- Create memes so dumb they go viral
- Darryl learns what a wallet is

Phase 2: "Banana Business"

- Launch staking & reward dashboard
- CoinGecko & CoinMarketCap listings
- Teach Darryl how to read charts (likely fails)
- NFT drop: "Dumb Ass Darryls"
- Partner with other ape-minded meme coins

Phase 3: "Darryl Goes to the Moon"

- CEX listings
- IRL merch (banana-scented?)
- Launch Darryl's animated series
- Darryl accidentally leaks seed phrase live
- Begin development of "DumbDAO" (governance for the brain-dead)

Dumb Ass Coin (\$DUMB)

Why \$DUMB?

Because you've bought worse.

Because passive SOL rewards every 15 minutes sound smart...

And because Darryl said so.
